FA0574 - Maxx Blend tobacco

Revision nr.5 Dated 11/05/2017 Printed on 11/05/2017 Page n. 1 / 9

		Safety data sheet	
SECTION 1. Identi	fication of the sul	ostance/mixture and of the company/under	rtaking
I.1. Product identifier			
Code:		FA0574	
Product name		Maxx Blend tobacco	
I.2. Relevant identified u	ses of the substance or	mixture and uses advised against	
Intended use		Aroma Flavoring	
1.3. Details of the supplie	er of the safety data she	ət	
Name		FLAVOURART SRL	
Full address		Via Carmine 39/U	
District and Country		28047 Oleggio (NO) Italia	
		Tel. 0321 960553	
		Fax 0321 204549	
e-mail address of the co responsible for the Safe		info@flavourart.it	
I.4. Emergency telephon			
For urgent inquiries refe	er to	+39 0321 960553 Contro Antivoloni Niguarda 02 66101020	
2.1. Classification of the	substance or mixture	Centro Antiveleni Niguarda 02-66101029	nd subsequent
amendments and suppl and subsequent amend Any additional informati	substance or mixture d as hazardous pursuant to ements). The product thus ments. on concerning the risks for	the provisions set forth in EC Regulation 1272/2008 (CLP) (ar requires a safety datasheet that complies with the provisions of health and/or the environment are given in sections 11 and 12	of EC Regulation 1907/2006
2.1. Classification of the The product is classified amendments and suppl and subsequent amend	substance or mixture d as hazardous pursuant to ements). The product thus ments. on concerning the risks for nd indication:	o the provisions set forth in EC Regulation 1272/2008 (CLP) (ar requires a safety datasheet that complies with the provisions o	of EC Regulation 1907/2006 t of this sheet.
2.1. Classification of the The product is classified amendments and suppl and subsequent amend Any additional informati Hazard classification an	substance or mixture d as hazardous pursuant to ements). The product thus ments. on concerning the risks for nd indication:	o the provisions set forth in EC Regulation 1272/2008 (CLP) (ar requires a safety datasheet that complies with the provisions o health and/or the environment are given in sections 11 and 12	of EC Regulation 1907/2006 t of this sheet.
 2.1. Classification of the The product is classified amendments and suppl and subsequent amend Any additional informati Hazard classification an Skin sensitization, ca 2.2. Label elements 	substance or mixture d as hazardous pursuant to ements). The product thus ments. on concerning the risks for ad indication: ategory 1A	o the provisions set forth in EC Regulation 1272/2008 (CLP) (ar requires a safety datasheet that complies with the provisions o health and/or the environment are given in sections 11 and 12	of EC Regulation 1907/2006 t of this sheet.
 2.1. Classification of the The product is classified amendments and suppl and subsequent amend Any additional informati Hazard classification an Skin sensitization, ca 2.2. Label elements 	substance or mixture d as hazardous pursuant to ements). The product thus ments. on concerning the risks for ad indication: ategory 1A	the provisions set forth in EC Regulation 1272/2008 (CLP) (ar requires a safety datasheet that complies with the provisions of health and/or the environment are given in sections 11 and 12 H317 May cause an allergic sk	of EC Regulation 1907/2006 t of this sheet.
 2.1. Classification of the The product is classified amendments and suppl and subsequent amend Any additional informati Hazard classification an Skin sensitization, ca 2.2. Label elements Hazard labelling pursua 	substance or mixture d as hazardous pursuant to ements). The product thus ments. on concerning the risks for ad indication: ategory 1A	the provisions set forth in EC Regulation 1272/2008 (CLP) (ar requires a safety datasheet that complies with the provisions of health and/or the environment are given in sections 11 and 12 H317 May cause an allergic sk	of EC Regulation 1907/2006 t of this sheet.
 2.1. Classification of the The product is classified amendments and suppl and subsequent amend Any additional informati Hazard classification an Skin sensitization, ci 2.2. Label elements Hazard labelling pursua Hazard pictograms: 	substance or mixture d as hazardous pursuant to ements). The product thus ments. on concerning the risks for id indication: ategory 1A int to EC Regulation 1272/	the provisions set forth in EC Regulation 1272/2008 (CLP) (ar requires a safety datasheet that complies with the provisions of health and/or the environment are given in sections 11 and 12 H317 May cause an allergic sk 2008 (CLP) and subsequent amendments and supplements.	of EC Regulation 1907/2006 t of this sheet.

ΕN

FA0574 - Maxx Blend tobacco

Revision nr.5 Dated 11/05/2017 Printed on 11/05/2017 Page n. 2 / 9 ΕN

SECTION 2. Hazards identification ... / >>

Contains:

2.3. Other hazards

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.

SECTION 3. Composition/information on ingredients

Furaneol

3.1. Substances

Information not relevant

3.2. Mixtures

Contains	:		
Identifica	ation	Conc. %	Classification 1272/2008 (CLP)
Vanillin CAS	121-33-5	1,202	Acute Tox. 4 H302
EC INDEX Acetylfu	204-465-2 ran 2		
CAS EC	1192-62-7 214-757-1	0,202	Acute Tox. 3 H301, Acute Tox. 4 H312, Acute Tox. 4 H332, Eye Dam. 1 H318
INDEX Furaneo		0.147	Chin Cone 14 1/217
CAS EC INDEX	3658-77-3 222-908-8	0,147	Skin Sens. 1A H317

The full wording of hazard (H) phrases is given in section 16 of the sheet.

SECTION 4. First aid measures

4.1. Description of first aid measures

EYES: Remove contact lenses, if present. Wash immediately with plenty of water for at least 15 minutes, opening the eyelids fully. If problem persists, seek medical advice.

SKIN: Remove contaminated clothing. Rinse skin with a shower immediately. Get medical advice/attention immediately. Wash contaminated clothing before using it again.

INHALATION: Remove to open air. If the subject stops breathing, administer artificial respiration. Get medical advice/attention immediately. INGESTION: Get medical advice/attention immediately. Do not induce vomiting. Do not administer anything not explicitly authorised by a doctor.

4.2. Most important symptoms and effects, both acute and delayed

Specific information on symptoms and effects caused by the product are unknown.

4.3. Indication of any immediate medical attention and special treatment needed

Information not available

SECTION 5. Firefighting measures

5.1. Extinguishing media

SUITABLE EXTINGUISHING EQUIPMENT

Extinguishing substances are: carbon dioxide, foam, chemical powder. For product loss or leakage that has not caught fire, water spray can be used to disperse flammable vapours and protect those trying to stem the leak.

UNSUITABLE EXTINGUISHING EQUIPMENT

Do not use jets of water. Water is not effective for putting out fires but can be used to cool containers exposed to flames to prevent explosions.

FA0574 - Maxx Blend tobacco

Revision nr.5 Dated 11/05/2017 Printed on 11/05/2017 Page n. 3 / 9

SECTION 5. Firefighting measures ... / >>

5.2. Special hazards arising from the substance or mixture

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE

Excess pressure may form in containers exposed to fire at a risk of explosion. Do not breathe combustion products.

5.3. Advice for firefighters

GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

SECTION 6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Block the leakage if there is no hazard.

Wear suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. These indications apply for both processing staff and those involved in emergency procedures.

6.2. Environmental precautions

The product must not penetrate into the sewer system or come into contact with surface water or ground water.

6.3. Methods and material for containment and cleaning up

Collect the leaked product into a suitable container. If the product is flammable, use explosion-proof equipment. Evaluate the compatibility of the container to be used, by checking section 10. Absorb the remainder with inert absorbent material. Make sure the leakage site is well aired. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

6.4. Reference to other sections

Any information on personal protection and disposal is given in sections 8 and 13.

SECTION 7. Handling and storage

7.1. Precautions for safe handling

Keep away from heat, sparks and naked flames; do not smoke or use matches or lighters. Vapours may catch fire and an explosion may occur; vapour accumulation is therefore to be avoided by leaving windows and doors open and ensuring good cross ventilation. Without adequate ventilation, vapours may accumulate at ground level and, if ignited, catch fire even at a distance, with the danger of backfire. Avoid bunching of electrostatic charges. When performing transfer operations involving large containers, connect to an earthing system and wear antistatic footwear. Vigorous stirring and flow through the tubes and equipment may cause the formation and accumulation of electrostatic charges. In order to avoid the risk of fires and explosions, never use compressed air when handling. Open containers with caution as they may be pressurised. Do not eat, drink or smoke during use. Avoid leakage of the product into the environment.

7.2. Conditions for safe storage, including any incompatibilities

Store only in the original container. Store the containers sealed, in a well ventilated place, away from direct sunlight. Store in a well ventilated place, keep far away from sources of heat, naked flames and sparks and other sources of ignition. Keep containers away from any incompatible materials, see section 10 for details.

10

Storage class TRGS 510 (Germany):

7.3. Specific end use(s)

Information not available

FA0574 - Maxx Blend tobacco

Revision nr.5 Dated 11/05/2017 Printed on 11/05/2017 Page n. 4 / 9

SECTION 8. Exposure controls/personal protection

8.1. Control parameters

Information not available

8.2. Exposure controls

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration.

When choosing personal protective equipment, ask your chemical substance supplier for advice.

Personal protective equipment must be CE marked, showing that it complies with applicable standards.

Provide an emergency shower with face and eye wash station.

HAND PROTECTION

Protect hands with category III work gloves (see standard EN 374).

The following should be considered when choosing work glove material: compatibility, degradation, failure time and permeability.

The work gloves' resistance to chemical agents should be checked before use, as it can be unpredictable. The gloves' wear time depends on the duration and type of use.

SKIN PROTECTION

Wear category II professional long-sleeved overalls and safety footwear (see Directive 89/686/EEC and standard EN ISO 20344). Wash body with soap and water after removing protective clothing.

EYE PROTECTION

Wear airtight protective goggles (see standard EN 166).

RESPIRATORY PROTECTION

If the threshold value (e.g. TLV-TWA) is exceeded for the substance or one of the substances present in the product, use a mask with a type B filter whose class (1, 2 or 3) must be chosen according to the limit of use concentration. (see standard EN 14387). In the presence of gases or vapours of various kinds and/or gases or vapours containing particulate (aerosol sprays, fumes, mists, etc.) combined filters are required.

Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited.

If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus (in compliance with standard EN 137) or external air-intake breathing apparatus (in compliance with standard EN 138). For a correct choice of respiratory protection device, see standard EN 529. ENVIRONMENTAL EXPOSURE CONTROLS

The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

SECTION 9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance		Not available
Colour		Not available
Odour		Not available
Odour threshold		Not available
рН		Not available
Melting point / freezing point		Not available
Initial boiling point		Not available
Boiling range		Not available
Flash point	>	60 °C
Evaporation rate		Not available
Flammability (solid, gas)		Not available
Lower inflammability limit		Not available
Upper inflammability limit		Not available
Lower explosive limit		Not available
Upper explosive limit		Not available
Vapour pressure		Not available
Vapour density		Not available
Relative density		Not available
Solubility		Not available
Partition coefficient: n-octanol/water		Not available
Auto-ignition temperature		Not available
Decomposition temperature		Not available
Viscosity		Not available
Explosive properties		Not available
Oxidising properties		Not available

FA0574 - Maxx Blend tobacco

SECTION 9. Physical and chemical properties .../>>

9.2. Other information

Information not available

SECTION 10. Stability and reactivity

10.1. Reactivity

There are no particular risks of reaction with other substances in normal conditions of use.

10.2. Chemical stability

The product is stable in normal conditions of use and storage.

10.3. Possibility of hazardous reactions

No hazardous reactions are foreseeable in normal conditions of use and storage.

10.4. Conditions to avoid

None in particular. However the usual precautions used for chemical products should be respected.

10.5. Incompatible materials

Information not available

10.6. Hazardous decomposition products

Information not available

SECTION 11. Toxicological information

In the absence of experimental data for the product itself, health hazards are evaluated according to the properties of the substances it contains, using the criteria specified in the applicable regulation for classification. It is therefore necessary to take into account the concentration of the individual hazardous substances indicated in section 3, to evaluate the toxicological effects of exposure to the product.

11.1. Information on toxicological effects

Metabolism, toxicokinetics, mechanism of action and other information

Information not available

Information on likely routes of exposure

Information not available

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Information not available

Interactive effects

Information not available

ACUTE TOXICITY

LC50 (Inhalation) of the mixture: LD50 (Oral) of the mixture: LD50 (Dermal) of the mixture: Not classified (no significant component) >2000 mg/kg Not classified (no significant component)

SKIN CORROSION / IRRITATION

Does not meet the classification criteria for this hazard class

SERIOUS EYE DAMAGE / IRRITATION

SECTION 11. Toxicological information/>>

Does not meet the classification criteria for this hazard class

RESPIRATORY OR SKIN SENSITISATION

Sensitising for the skin

GERM CELL MUTAGENICITY

Does not meet the classification criteria for this hazard class

CARCINOGENICITY

Does not meet the classification criteria for this hazard class

REPRODUCTIVE TOXICITY

Does not meet the classification criteria for this hazard class

STOT - SINGLE EXPOSURE

Does not meet the classification criteria for this hazard class

STOT - REPEATED EXPOSURE

Does not meet the classification criteria for this hazard class

ASPIRATION HAZARD

Does not meet the classification criteria for this hazard class

SECTION 12. Ecological information

Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or contaminate soil or vegetation.

12.1. Toxicity

Information not available

12.2. Persistence and degradability

Information not available

12.3. Bioaccumulative potential

Information not available

12.4. Mobility in soil

Information not available

12.5. Results of PBT and vPvB assessment

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.

12.6. Other adverse effects

Information not available

SECTION 13. Disposal considerations

13.1. Waste treatment methods

Reuse, when possible. Product residues should be considered special hazardous waste. The hazard level of waste containing this product should be evaluated according to applicable regulations.

FA0574 - Maxx Blend tobacco

Revision nr.5 Dated 11/05/2017 Printed on 11/05/2017 Page n. 7 / 9

SECTION 13. Disposal considerations/>>

Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations. CONTAMINATED PACKAGING

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

SECTION 14. Transport information

The product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

14.1. UN number

Not applicable

14.2. UN proper shipping name

Not applicable

14.3. Transport hazard class(es)

Not applicable

14.4. Packing group

Not applicable

14.5. Environmental hazards

Not applicable

14.6. Special precautions for user

Not applicable

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

Information not relevant

SECTION 15. Regulatory information

Seveso Category - Directive 2012/18/EC.

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Restrictions relating to the product or contained substances pursuant to Annex XVII to EC Regulation 1907/2006
Product
Point 3
Substances in Candidate List (Art. 59 REACH) On the basis of available data, the product does not contain any SVHC in percentage greater than 0,1%.
Substances subject to authorisarion (Annex XIV REACH) None
Substances subject to exportation reporting pursuant to (EC) Reg. 649/2012: None
Substances subject to the Rotterdam Convention:
Substances subject to the Stockholm Convention: None
Healthcare controls Workers exposed to this chemical agent must not undergo health checks, provided that available risk-assessment data prove that the risks related to the workers' health and safety are modest and that the 98/24/EC directive is respected.
German regulation on the classification of substances hazardous to water (VwVwS 2005)

None

FA0574 - Maxx Blend tobacco

Revision nr.5 Dated 11/05/2017 Printed on 11/05/2017 Page n. 8 / 9

SECTION 15. Regulatory information ... / >>

WGK 1: Low hazard to waters

15.2. Chemical safety assessment

No chemical safety assessment has been processed for the mixture and the substances it contains.

SECTION 16. Other information

Text of hazard (H) indications mentioned in section 2-3 of the sheet:

Acute Tox. 3	Acute toxicity, category 3
Acute Tox. 4	Acute toxicity, category 4
Eye Dam. 1	Serious eye damage, category 1
Skin Sens. 1A	Skin sensitization, category 1A
H301	Toxic if swallowed.
H302	Harmful if swallowed.
H312	Harmful in contact with skin.
H332	Harmful if inhaled.
H318	Causes serious eye damage.
H317	May cause an allergic skin reaction.

LEGEND:

- ADR: European Agreement concerning the carriage of Dangerous goods by Road
- CAS NUMBER: Chemical Abstract Service Number
- CE50: Effective concentration (required to induce a 50% effect)
- CE NUMBER: Identifier in ESIS (European archive of existing substances)
