# FA1558 - Fragola Succosa Strawberry juicy

Revision nr.1 Dated 20/09/2017 Printed on 20/09/2017 Page n. 1/8

		Safety da	ta sheet	
SECTION 1. Identification of the substance/mixture and of the company/undertaking				
1. Product identifier				
Code: Product name		FA1558 Fragola Succosa Strav	vberry juicy	
2. Relevant identified us	es of the substance or	mixture and uses advised	against	
Identified Uses		Industrial	Professional	Consumer
Food industries, E-liqui 3. Details of the supplier		- et	$\checkmark$	-
Name		FLAVOURART SRL		
Full address		Via Carmine 39/U		
District and Country		28047 Oleggio Italia		(NO)
		Tel. 0321 960553		
a waali adala 🛛 🕅		Fax 0321 204549		
e-mail address of the con responsible for the Safety		info@flavourart.it		
.4. Emergency telephone	number			
For urgent inquiries refer	to	+39 0321 960553 Centro Antiveleni Nigu	arda 02-66101029	
SECTION 2. Hazard	is identification			
2.1. Classification of the s	ubstance or mixture			
The product is classified a amendments and suppler	as hazardous pursuant t ments). The product thus	o the provisions set forth in E s requires a safety datasheet		(CLP) (and subsequent rovisions of EC Regulation 1907/2006
The product is classified a amendments and suppler and subsequent amendm	as hazardous pursuant t ments). The product thus nents.		that complies with the p	rovisions of EC Regulation 1907/2006
The product is classified a amendments and suppler and subsequent amendm	as hazardous pursuant t ments). The product thus nents. n concerning the risks fo indication:	s requires a safety datasheet	that complies with the p ent are given in sections	rovisions of EC Regulation 1907/2006
The product is classified a amendments and suppler and subsequent amendm Any additional information Hazard classification and Skin sensitization, cat	as hazardous pursuant t ments). The product thus nents. n concerning the risks fo indication:	s requires a safety datasheet r health and/or the environm	that complies with the p ent are given in sections	rovisions of EC Regulation 1907/2006 11 and 12 of this sheet.
The product is classified a amendments and suppler and subsequent amendm Any additional information Hazard classification and Skin sensitization, cat	as hazardous pursuant t ments). The product thus nents. n concerning the risks fo indication: regory 1A	s requires a safety datasheet r health and/or the environm	that complies with the p ent are given in sections May cause an	rovisions of EC Regulation 1907/2006 11 and 12 of this sheet. allergic skin reaction.
amendments and suppler and subsequent amendm Any additional informatior Hazard classification and Skin sensitization, cat	as hazardous pursuant t ments). The product thus nents. n concerning the risks fo indication: regory 1A	s requires a safety datasheet or health and/or the environm H317	that complies with the p ent are given in sections May cause an	rovisions of EC Regulation 1907/2006 11 and 12 of this sheet. allergic skin reaction.
The product is classified a amendments and suppler and subsequent amendm Any additional information Hazard classification and Skin sensitization, cat 2.2. Label elements Hazard labelling pursuant	as hazardous pursuant t ments). The product thus nents. n concerning the risks fo indication: regory 1A	s requires a safety datasheet or health and/or the environm H317	that complies with the p ent are given in sections May cause an	rovisions of EC Regulation 1907/2006 11 and 12 of this sheet. allergic skin reaction.
The product is classified a amendments and suppler and subsequent amendm Any additional information Hazard classification and Skin sensitization, cat 2.2. Label elements Hazard labelling pursuant	as hazardous pursuant t ments). The product thus nents. n concerning the risks fo indication: regory 1A	s requires a safety datasheet or health and/or the environm H317	that complies with the p ent are given in sections May cause an	rovisions of EC Regulation 1907/2006 11 and 12 of this sheet. allergic skin reaction.
The product is classified a amendments and suppler and subsequent amendm Any additional information Hazard classification and Skin sensitization, cat <b>2.2. Label elements</b> Hazard labelling pursuant	as hazardous pursuant t ments). The product thus nents. n concerning the risks fo indication: regory 1A	s requires a safety datasheet or health and/or the environm H317	that complies with the p ent are given in sections May cause an	rovisions of EC Regulation 1907/2006 11 and 12 of this sheet. allergic skin reaction.
The product is classified a amendments and suppler and subsequent amendm Any additional information Hazard classification and Skin sensitization, cat <b>.2. # FA1558 - Fragola Succosa Strawberry juicy

Revision nr.1 Dated 20/09/2017 Printed on 20/09/2017 Page n. 2 / 8

### SECTION 2. Hazards identification ... / >>

### 2.3. Other hazards

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.

Classification 1272/2008 (CLP)

### **SECTION 3.** Composition/information on ingredients

### 3.1. Substances

Information not relevant

### 3.2. Mixtures

Contains:

Identification	Conc. %
----------------	---------

 Furaneol
 Skin Sens. 1A H317

 CAS
 3658-77-3
 9
 Skin Sens. 1A H317

 EC
 222-908-8
 INDEX
 INDEX

The full wording of hazard (H) phrases is given in section 16 of the sheet.

## **SECTION 4. First aid measures**

### 4.1. Description of first aid measures

EYES: Remove contact lenses, if present. Wash immediately with plenty of water for at least 30-60 minutes, opening the eyelids fully. Get medical advice/attention.

SKIN: Remove contaminated clothing. Rinse skin with a shower immediately. Get medical advice/attention.

INGESTION: Have the subject drink as much water as possible. Get medical advice/attention. Do not induce vomiting unless explicitly authorised by a doctor.

INHALATION: Get medical advice/attention immediately. Remove victim to fresh air, away from the accident scene. If the subject stops breathing, administer artificial respiration. Take suitable precautions for rescue workers.

### 4.2. Most important symptoms and effects, both acute and delayed

Specific information on symptoms and effects caused by the product are unknown.

### 4.3. Indication of any immediate medical attention and special treatment needed

Information not available

## **SECTION 5. Firefighting measures**

### 5.1. Extinguishing media

SUITABLE EXTINGUISHING EQUIPMENT

Extinguishing substances are: carbon dioxide, foam, chemical powder. For product loss or leakage that has not caught fire, water spray can be used to disperse flammable vapours and protect those trying to stem the leak.

UNSUITABLE EXTINGUISHING EQUIPMENT

Do not use jets of water. Water is not effective for putting out fires but can be used to cool containers exposed to flames to prevent explosions.

### 5.2. Special hazards arising from the substance or mixture

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE Excess pressure may form in containers exposed to fire at a risk of explosion. Do not breathe combustion products.

### 5.3. Advice for firefighters

### GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations. SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Revision nr.1 Dated 20/09/2017 Printed on 20/09/2017 Page n. 3 / 8

# FA1558 - Fragola Succosa Strawberry juicy

Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

### **SECTION 6.** Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Block the leakage if there is no hazard.

Wear suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. These indications apply for both processing staff and those involved in emergency procedures.

### 6.2. Environmental precautions

The product must not penetrate into the sewer system or come into contact with surface water or ground water.

### 6.3. Methods and material for containment and cleaning up

Collect the leaked product into a suitable container. If the product is flammable, use explosion-proof equipment. Evaluate the compatibility of the container to be used, by checking section 10. Absorb the remainder with inert absorbent material. Make sure the leakage site is well aired. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

### 6.4. Reference to other sections

Any information on personal protection and disposal is given in sections 8 and 13.

### **SECTION 7. Handling and storage**

### 7.1. Precautions for safe handling

Keep away from heat, sparks and naked flames; do not smoke or use matches or lighters. Without adequate ventilation, vapours may accumulate at ground level and, if ignited, catch fire even at a distance, with the danger of backfire. Avoid bunching of electrostatic charges. Do not eat, drink or smoke during use. Remove any contaminated clothes and personal protective equipment before entering places in which people eat. Avoid leakage of the product into the environment.

### 7.2. Conditions for safe storage, including any incompatibilities

Store only in the original container. Store in a well ventilated place, keep far away from sources of heat, naked flames and sparks and other sources of ignition. Keep containers away from any incompatible materials, see section 10 for details.

### 7.3. Specific end use(s)

Information not available

### **SECTION 8. Exposure controls/personal protection**

### 8.1. Control parameters

Information not available

### 8.2. Exposure controls

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration.

When choosing personal protective equipment, ask your chemical substance supplier for advice.

Personal protective equipment must be CE marked, showing that it complies with applicable standards.

Provide an emergency shower with face and eye wash station.

HAND PROTECTION

Protect hands with category III work gloves (see standard EN 374).

The following should be considered when choosing work glove material: compatibility, degradation, failure time and permeability.

The work gloves' resistance to chemical agents should be checked before use, as it can be unpredictable. The gloves' wear time depends on the duration and type of use.

SKIN PROTECTION

Wear category II professional long-sleeved overalls and safety footwear (see Directive 89/686/EEC and standard EN ISO 20344). Wash body with soap and water after removing protective clothing.

EYE PROTECTION

Wear airtight protective goggles (see standard EN 166).

# FA1558 - Fragola Succosa Strawberry juicy

Revision nr.1 Dated 20/09/2017 Printed on 20/09/2017 Page n. 4 / 8

### SECTION 8. Exposure controls/personal protection ... / >>

### RESPIRATORY PROTECTION

If the threshold value (e.g. TLV-TWA) is exceeded for the substance or one of the substances present in the product, use a mask with a type B filter whose class (1, 2 or 3) must be chosen according to the limit of use concentration. (see standard EN 14387). In the presence of gases or vapours of various kinds and/or gases or vapours containing particulate (aerosol sprays, fumes, mists, etc.) combined filters are required.

Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited.

If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus (in compliance with standard EN 137) or external air-intake breathing apparatus (in compliance with standard EN 138). For a correct choice of respiratory protection device, see standard EN 529. ENVIRONMENTAL EXPOSURE CONTROLS

The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

## **SECTION 9.** Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

Appearance Colour Odour Odour threshold pH Melting point / freezing point Initial boiling point Boiling range Flash point Evaporation rate Flammability (solid, gas) Lower inflammability limit Upper inflammability limit Upper explosive limit Upper explosive limit Upper explosive limit Vapour pressure Vapour density Relative density Solubility Partition coefficient: n-octanol/water	liquid straw-coloured aromatic Not available Not available

Oxidising properties	INUL available

#### 9.2. Other information

Information not available

## **SECTION 10. Stability and reactivity**

### 10.1. Reactivity

There are no particular risks of reaction with other substances in normal conditions of use.

### 10.2. Chemical stability

The product is stable in normal conditions of use and storage.

### 10.3. Possibility of hazardous reactions

No hazardous reactions are foreseeable in normal conditions of use and storage.

### 10.4. Conditions to avoid

None in particular. However the usual precautions used for chemical products should be respected.

Does not meet the classification criteria for this hazard class

### **SECTION 12. Ecological information**

### 12.1. Toxicity

Information not available

### 12.2. Persistence and degradability

Information not available

#### 12.3. Bioaccumulative potential

Information not available

### 12.4. Mobility in soil

Information not available

### 12.5. Results of PBT and vPvB assessment

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.

### 12.6. Other adverse effects

Information not available

## **SECTION 13. Disposal considerations**

### 13.1. Waste treatment methods

Reuse, when possible. Product residues should be considered special hazardous waste. The hazard level of waste containing this product should be evaluated according to applicable regulations.

Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations. CONTAMINATED PACKAGING

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

### **SECTION 14. Transport information**

The product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

### 14.1. UN number

Not applicable

### 14.2. UN proper shipping name

Not applicable

### 14.3. Transport hazard class(es)

Not applicable

### 14.4. Packing group

Not applicable

#### 14.5. Environmental hazards

Not applicable

# FA1558 - Fragola Succosa Strawberry juicy

SECTION 14. Transport information ... / >>

## 14.6. Special precautions for user

Not applicable

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

Information not relevant

## SECTION 15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Seveso Category - Directive 2012/18/EC:

3

None

Restrictions relating to the product or contained substances pursuant to Annex XVII to EC Regulation 1907/2006
Product

Point

Substances in Candidate List (Art. 59 REACH)

On the basis of available data, the product does not contain any SVHC in percentage greater than 0,1%.

Substances subject to authorisarion (Annex XIV REACH)
None

Substances subject to exportation reporting pursuant to (EC) Reg. 649/2012: None

Substances subject to the Rotterdam Convention:

None

Substances subject to the Stockholm Convention: None

Healthcare controls

Workers exposed to this chemical agent must not undergo health checks, provided that available risk-assessment data prove that the risks related to the workers' health and safety are modest and that the 98/24/EC directive is respected.

### 15.2. Chemical safety assessment

No chemical safety assessment has been processed for the mixture and the substances it contains.

## **SECTION 16. Other information**

Text of hazard (H) indications mentioned in section 2-3 of the sheet:

Skin Sens. 1A	Skin sensitization, category 1A
H317	May cause an allergic skin reaction.

LEGEND:

- ADR: European Agreement concerning the carriage of Dangerous goods by Road
- CAS NUMBER: Chemical Abstract Service Number
- CE50: Effective concentration (required to induce a 50% effect)
- CE NUMBER: Identifier in ESIS (European archive of existing substances)
- CLP: EC Regulation 1272/2008
